LRS & Cisco - A Trusted Partnership

Take control of your network security with LRS and Cisco Umbrella. Designed to provide you with a robust, comprehensive cybersecurity solution: Cisco Umbrella protects users, data, and systems across various attack vectors to secure your network both on and off-premise.

Experience Comprehensive Protection with Cisco Umbrella, which provides:

DNS-Layer Security

Industry-leading solution blocks malicious destinations quickly and effectively, before a connection is ever established, simultaneously preventing security breaches and improving user experience.

Secure Web Gateway

Secure web gateway offered as just one part of a cloud-based, unified security service edge to gain visibility into web traffic and block malicious websites.

Firewall

Cloud-based intrusion prevention system based on the largest global private security threat intelligence organization to block access to malicious IPs and ports.

Cloud Access Security Broker Functionality

Security point software that enhances risk management and compliance measures by discovering and blocking unapproved applications to protect cloud data and cloud users.

LRS provides reliable technology solutions, including Cisco Umbrella: a proactive, all-encompassing security solution. Partner with LRS for optimized infrastructure, software, and security solutions that minimize both risks and costs while simultaneously increasing revenue.

Why choose Cisco Umbrella with LRS?

Simplify Security Management: All security functions are consolidated into a single cloud platform, reducing complexity.

Increased Comprehensive Visibility: With superior reporting and analytics, gain insight into all internet activity, across all locations and users.

Maximized Threat Intelligence: Cisco Umbrella leverages machine learning to identify and block threats to prevent any risk or damage.

Enhanced Performance: In addition to top-notch security, Cisco Umbrella also optimizes system performance, providing an enhanced user experience and increasing operational efficiency.

Discover the power of LRS's Cisco Umbrella solution and elevate your network security today.
